EXECUTIVE SESSION

Councilman Johnson thanked the Recreation Department at the Town Beach and Councilwoman Mitts and Supervisor Dunford for embellishing wells Park. Since then the enrollment at the Day Camp has gone Up.

Ann Fanizzi said adding amenities to Senior Housing should be added to all Senior Housing Projects. She also thought that if there is more senior housing a market analysis should be essential and part of the SEQRA process. Martha Shortledge asked if it was exempt from sub-division regulations and Town Counsel said no. A recent concern was raised about construction on Terravest. The Supervisor said T-2 is Ace Endico. The approval includes a Waste Water Treatment Plant on the other side of the road. The Plant will be located on T3 and will serve T2. The improvements include construction of the Treatment Plant. Town Counsel said the provisions of Senior Housing required central sewer and water as part of the Special Permit conditions. This was reviewed by DEC, DOH, Planning Board, etc. What was proposed and approved is what is going on out there. It is inspected by the Town and every other interested agency. SEQRA review was for T2 & T3 and all the components. All environmental review has been approved. Don Rossi explained the past and the better solution that evolved. T2 was approved and T3 is a continuation of that process. He said that there will be under ground tank till WWSTP is ready. Mr. Lepler said if it is carted it will be out of Putnam County.

Don Cuomo asked about the determination made on Maple Road and was told that none has been made yet. Ms. Fanizzi asked about Wetlands.
