Dear Town Board of Southeast

I hold you all personally responsible for a thorough, honest, and complete environmental review of crossroads proposed for shopping and hotel.

For that matter let me tell you what I really feel. I do not want a shopping center or hotel placed on the hills around Foretta lake on Rte 312. Kohl's is half empty, the mall 5 minutes away.

When I go out for a walk I can see the harsh ugly Kohl's building from the town beach parking lot. When I take my rowboat out on Lake Foretta (which has suffered from development in the last 20 yrs.) I thank my God for the beauty of the hills →

surrounding this naturally
spring fed little lake. I
feel like it is
a blessing to still have
green wooded areas
on the hills.

Do any of you want
this proposed monstrosity
in your back yard? I
do the builders attorneys
or the builder of CROSSROADS
himself live here. I doubt
he does. He probably
lives in some wealthy
town where the people
have a voice
in their property value.

What do you stand for
Profit or people?

I will hold you responsible
for the choice you make
for our property, our grand-
children, our children
Sincerely
Theresa Brakken
